AMUSEMENTS

OLIVE THOMAS IN BEAUTIFUL STORY TODAY

The charm and mystery of a girl of the old south is delightfully portrayed by Olive Thomas in her new production, "Youthful Folly," which is at the Butler theatre today.

A more wholesome and piquant role never has been assigned this lovely little star since she won her way into the hearts of her admirers by her winning characterizations. She might have been born south of the Mason and Dixon line, so truly does she reflect the spirit of days when men were bold and rode thoroughbreds as if born in the saddle. The story deals with the adventures in the big world of love and intrigue of a little girl who had grown up on an old plantation way down in Dixie with only the plantation "hands" and three elderly aunts for company. She had always wondered what lay beyond the maple-crowned hills of her home. Then one day a lovely butterfly from the north flitted to the peaceful vale and the southern girl had her chance at love. She found happiness and tears—but most happiness—and it is all told in a masterly way that is sure to thrill you.

The doctor has had the matter under advisement for some time, but hesitated about entering active politics until persuaded by his friends that the best interests of the state would be served by his candidacy.
